ECOG Performance Status*

Grade	ECOG
0	Fully active, able to carry on all pre-disease performance without restriction
1	Restricted in physically strenuous activity but ambulatory and able to carry out work of a light or sedentary nature, eg, light house work, office work
2	Ambulatory and capable of all self care but unable to carry out any work activities. Up and about more than 50 percent of waking hours
3	Capable of only limited self care, confined to bed or chair more than 50 percent of waking hours
4	Completely disabled. Cannot carry on any self care: totally confined to bed or chair
5	Dead

The ECOG Performance Status was originally published in 1982 in the American Journal of Clinical Oncology. These are included in this policy for reference. ECOG states: "*These scales and criteria are used by doctors and researchers to assess how an individual's disease is progressing, assess how the disease affects the daily living abilities of the individual, and determine appropriate treatment and prognosis.*"
